Coding Animation with Scratch®

STEM Coding Enrichment for the 21st Century learner. Each {YEL!} Coding class follows four basic components:•**Teach It!**…Students learn different story-telling and coding techniques (movement blocks, animation, dialogue, timing, etc.) •**Code It!**… Students use Scratch®* to code their own animated story lines: i.e. westerns, missions in space and even dance parties. •**Explore It!**…Students can write their own code, experiment with it and test new options. We foster a collaborative environment where students learn from each other's creativity.•**Keep It!**…Students can keep their code online with Scratch® and can access it and expand upon it at any time. Sign up today to THINK, LEARN and PLAY WELL with {YEL!}.

Scratch® is not affiliated with {YEL!} nor does it endorse this program.
